

We are taking additional precautionary measures to help keep staff, animals, and clients safe. The following policies MUST be implemented throughout the hospital.

- Clients will be asked not to congregate in any areas of our hospital. We are asking that all clients call us when they arrive in the parking lot at (631)351-6116, and only come into the building once their pet is ready to be seen.
- There will be a one-person-per-patient rule unless it is 100% necessary for there to be an additional person (example: mother with a two-year-old who cannot wait in the car).
- We are still implementing the drive-up pick-up method for both medications and food.
- We are no longer allowing clients in the treatment area.
- PLEASE wash your hands frequently, use gloves, and keep a safe distance whenever possible.
- Avoid unnecessary contact with both people and pets whenever possible.

Thank you for your patience and understanding.
